

**April 10, 2017**

The Board of Supervisors attended a Farm Bureau meeting at the Farm Bureau office in Logan. All Board members were in attendance.

General discussion on the following topics took place: current legislative session involving secondary roads, mental health, and compensation board. The County's five-year construction plan was distributed and discussed. The group also held discussion on approximately 10 counties in Iowa that put a moratorium on large livestock buildings (Harrison County is not considering this moratorium). It was a good meeting between the two groups.

No action by the Board was taken.
