Harrison County Citizen Alert System

Alert System Overview

We have launched a new Citizen Alert System, powered by Everbridge, that allows us to notify you. You opt-in to enter your contact information and subscribe to notification you care about based on your location. The information you provide is protected and will not be used for any other purpose. If you have friends or family for whom you are concerned, you can be alerted for up to 5 locations within Harrison County.

How It Works

When we issue a notification about a potential safety hazard or concern, you will receive a message on the voice or text communication methods that you have registered. If requested for the notification, you can confirm that you have received the message and you will not be contacted by any subsequent methods regarding that particular notification. If you do not confirm, the system will continue to attempt to reach you at all of the contact paths that you have registered.

Sign Up for Alerts

Create an account and add your contact and location information into the Mass Notification system. All information you provide will be kept strictly confidential.

Stop Receiving Notifications

You can stop receiving at any time by removing your contact information from your profile.
